Where should a private health centre operator expand next?

Highlight region: All

Shortlist 2025: Uppsala, Östergötland, Västmanland, Örebro

Shortlisted = patients wait longer than in Sweden **and** the number of residents aged 65+ grows more than in the median region by 2030 (+3,199). Where waiting times can't be used, patients and residents both rating access below Sweden counts instead. ▼ below Sweden, ▲ at or above.

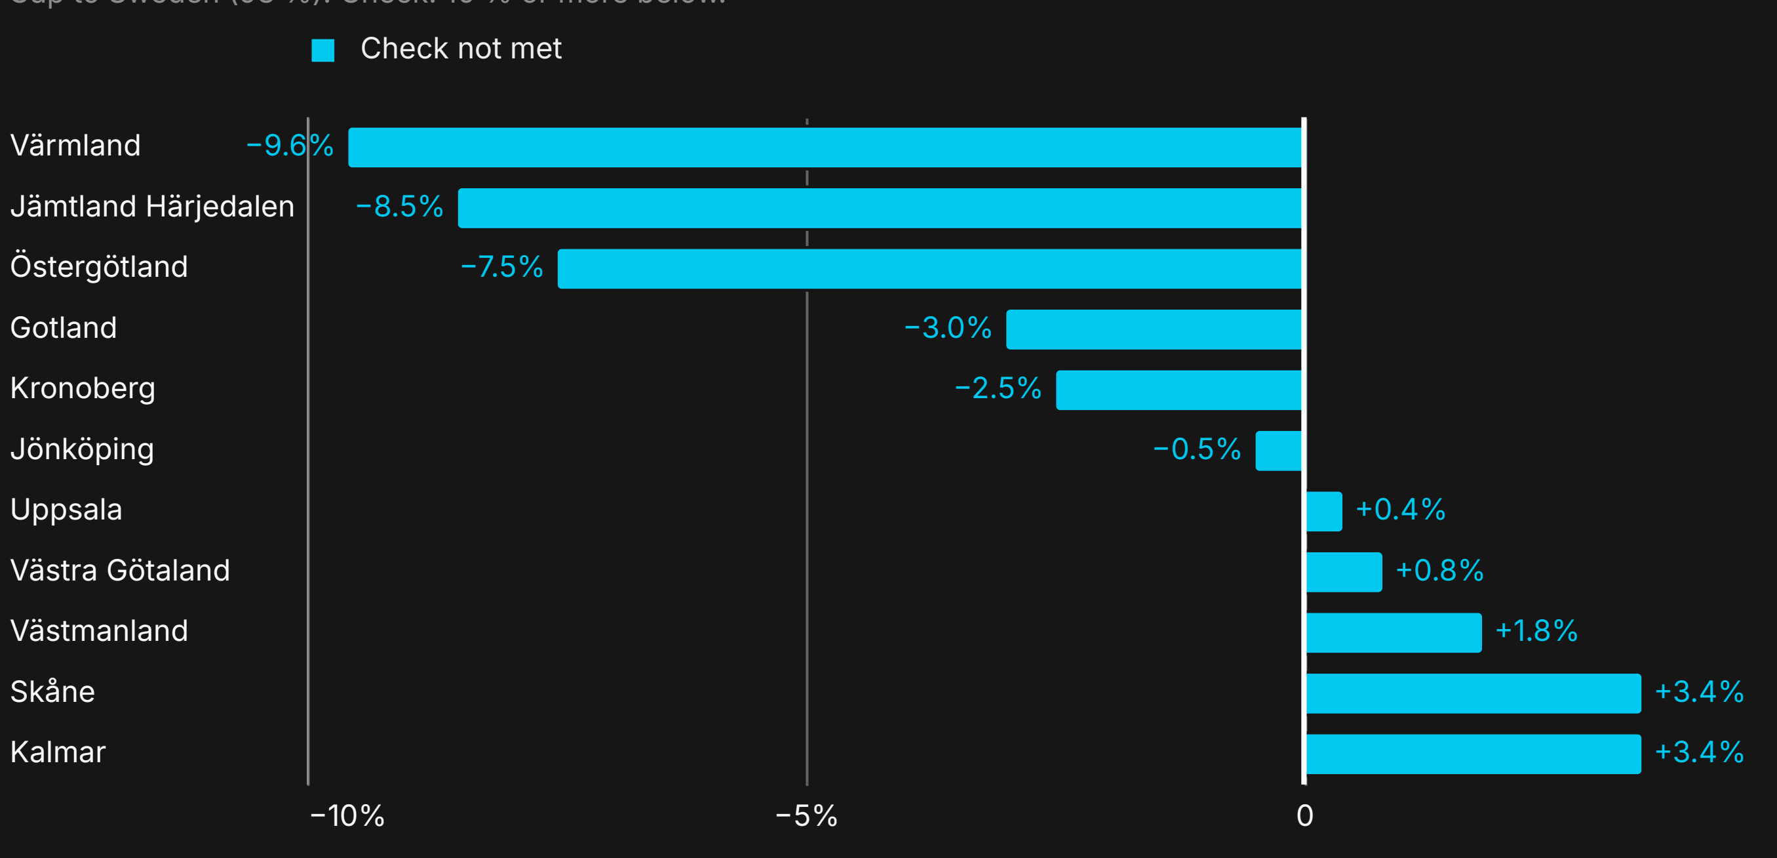
Region	Why shortlisted	65+, change	Residents, change	Assessed ≤ 3 days	Calls answered	NPE accessibility	NPE continuity	Reasonable wait	Trust	Competition
Uppsala	Access: 8.5% fewer assessed within 3 days than Sweden. Demand: +7,165 aged 65+ by 2030 (median region +3,199).	+7,165	+12,997	▼ −8.5%	▲ 0.4%	▲ 1.1	▲ 0.6	▲ 1.2%	▲ 4.9%	More contested
Östergötland	Access: 6.9% fewer assessed within 3 days than Sweden. Demand: +6,423 aged 65+ by 2030 (median region +3,199).	+6,423	+472	▼ −6.9	▼ −7.5	▲ 0.4	▼ −1.6	▲ 2.9	▲ 0.4	Less contested
Västmanland	Access: 8.6% fewer assessed within 3 days than Sweden. Demand: +4,168 aged 65+ by 2030 (median region +3,199). Note: only 2-4 of ~30 centres report since Nov 2025.	+4,168	+297	▼ −8.6	▲ 1.8	▲ 2.4	▼ −0.5	▲ 9.7	▲ 6.6	More contested
Örebro	Access: waiting times not usable (journal system change), but patients and residents both rate access below Sweden. Demand: +3,844 aged 65+ by 2030 (median region +3,199). Also below Sweden on NPE continuity and trust.	+3,844	−201	—	—	▼ −7.9	▼ −8.5	▼ −7.7	▼ −7.2	Less contested

1. Where is access worst?

Excluded, journal system change: Blekinge, Dalarna, Gävleborg, Halland, Norrbotten, Sörmland, Västerbotten, Västernorrland, Örebro. Their access gap comes from the surveys in question 2. Stockholm doesn't report calls.

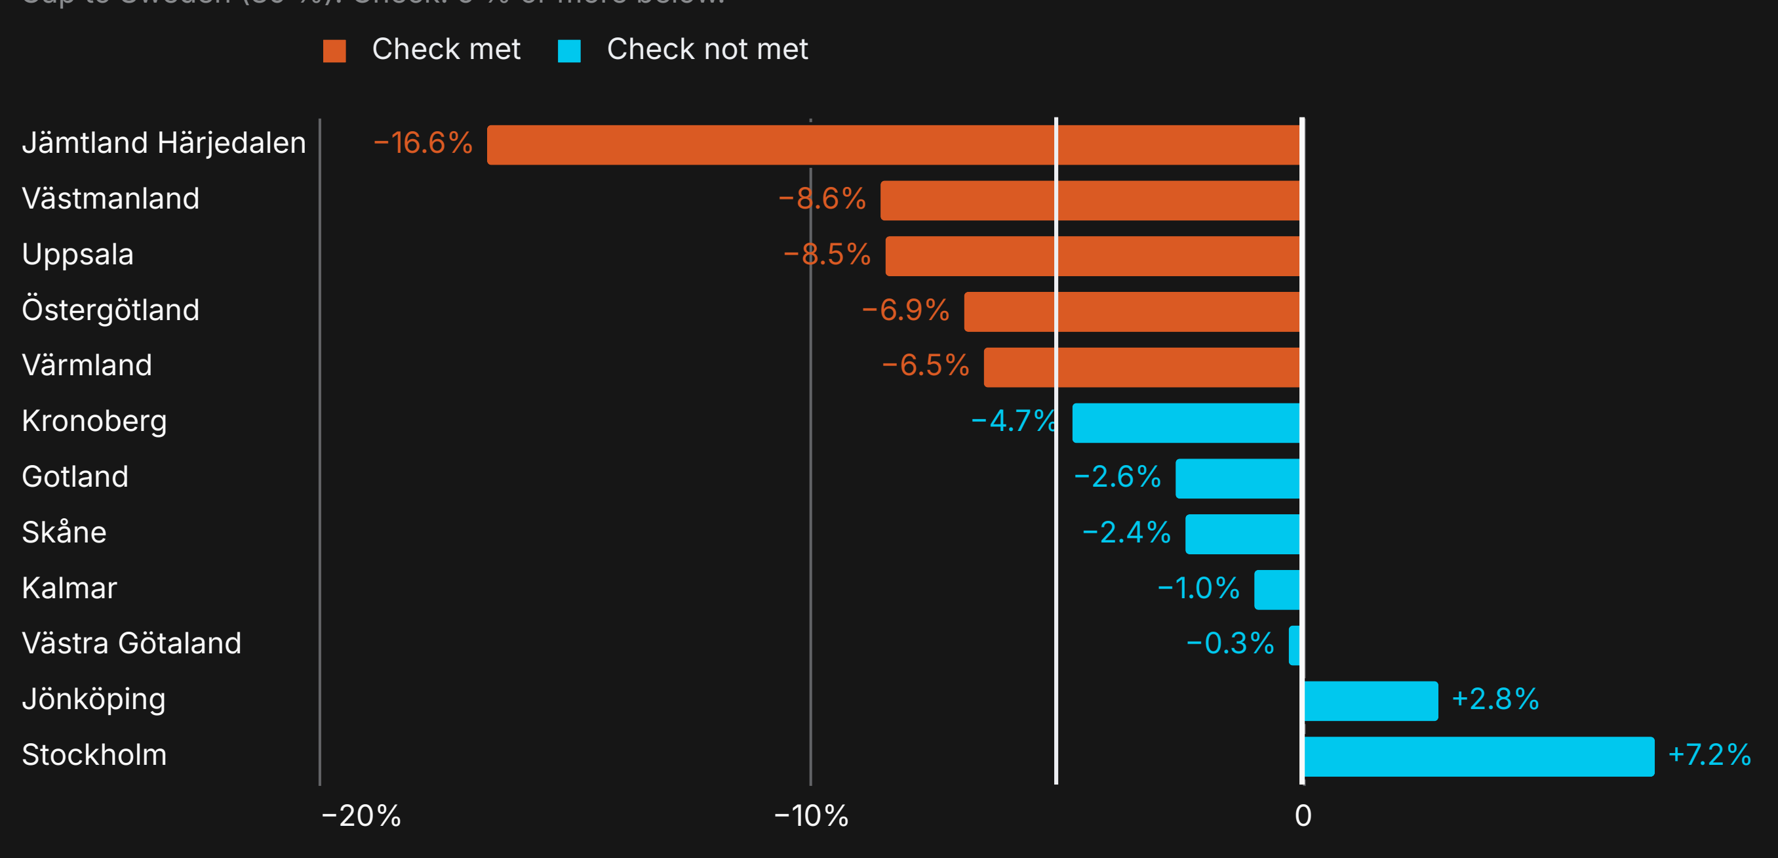
Calls answered the same day

Gap to Sweden (93 %). Check: 10 % or more below.



Medical assessment within 3 days

Gap to Sweden (89 %). Check: 5 % or more below.

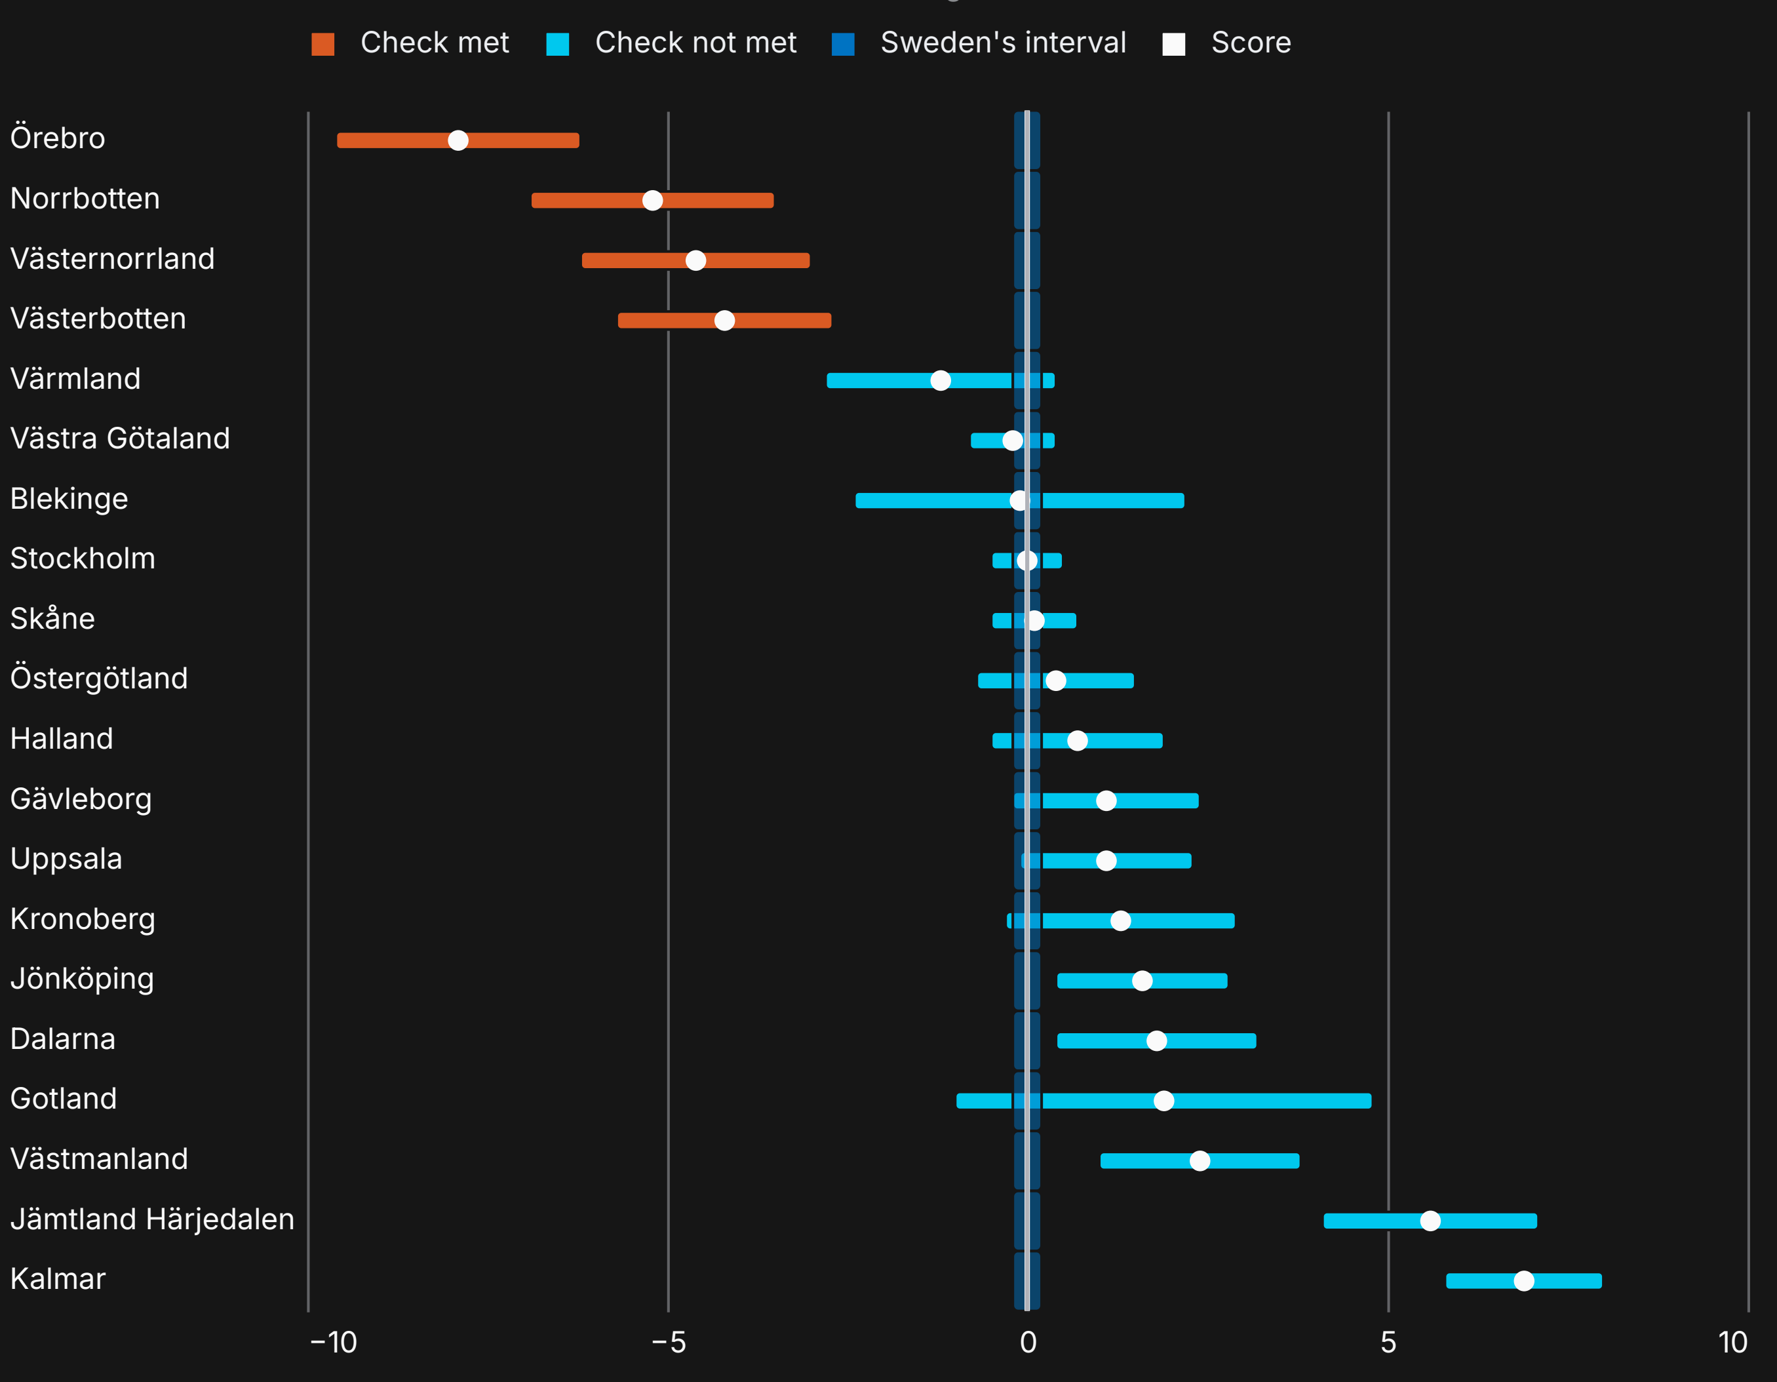


2. Where are patients least satisfied?

Excluded: Sörmland (no NPE results). Accessibility and reasonable wait stand in for waiting times where those can't be used; continuity and trust are supporting evidence.

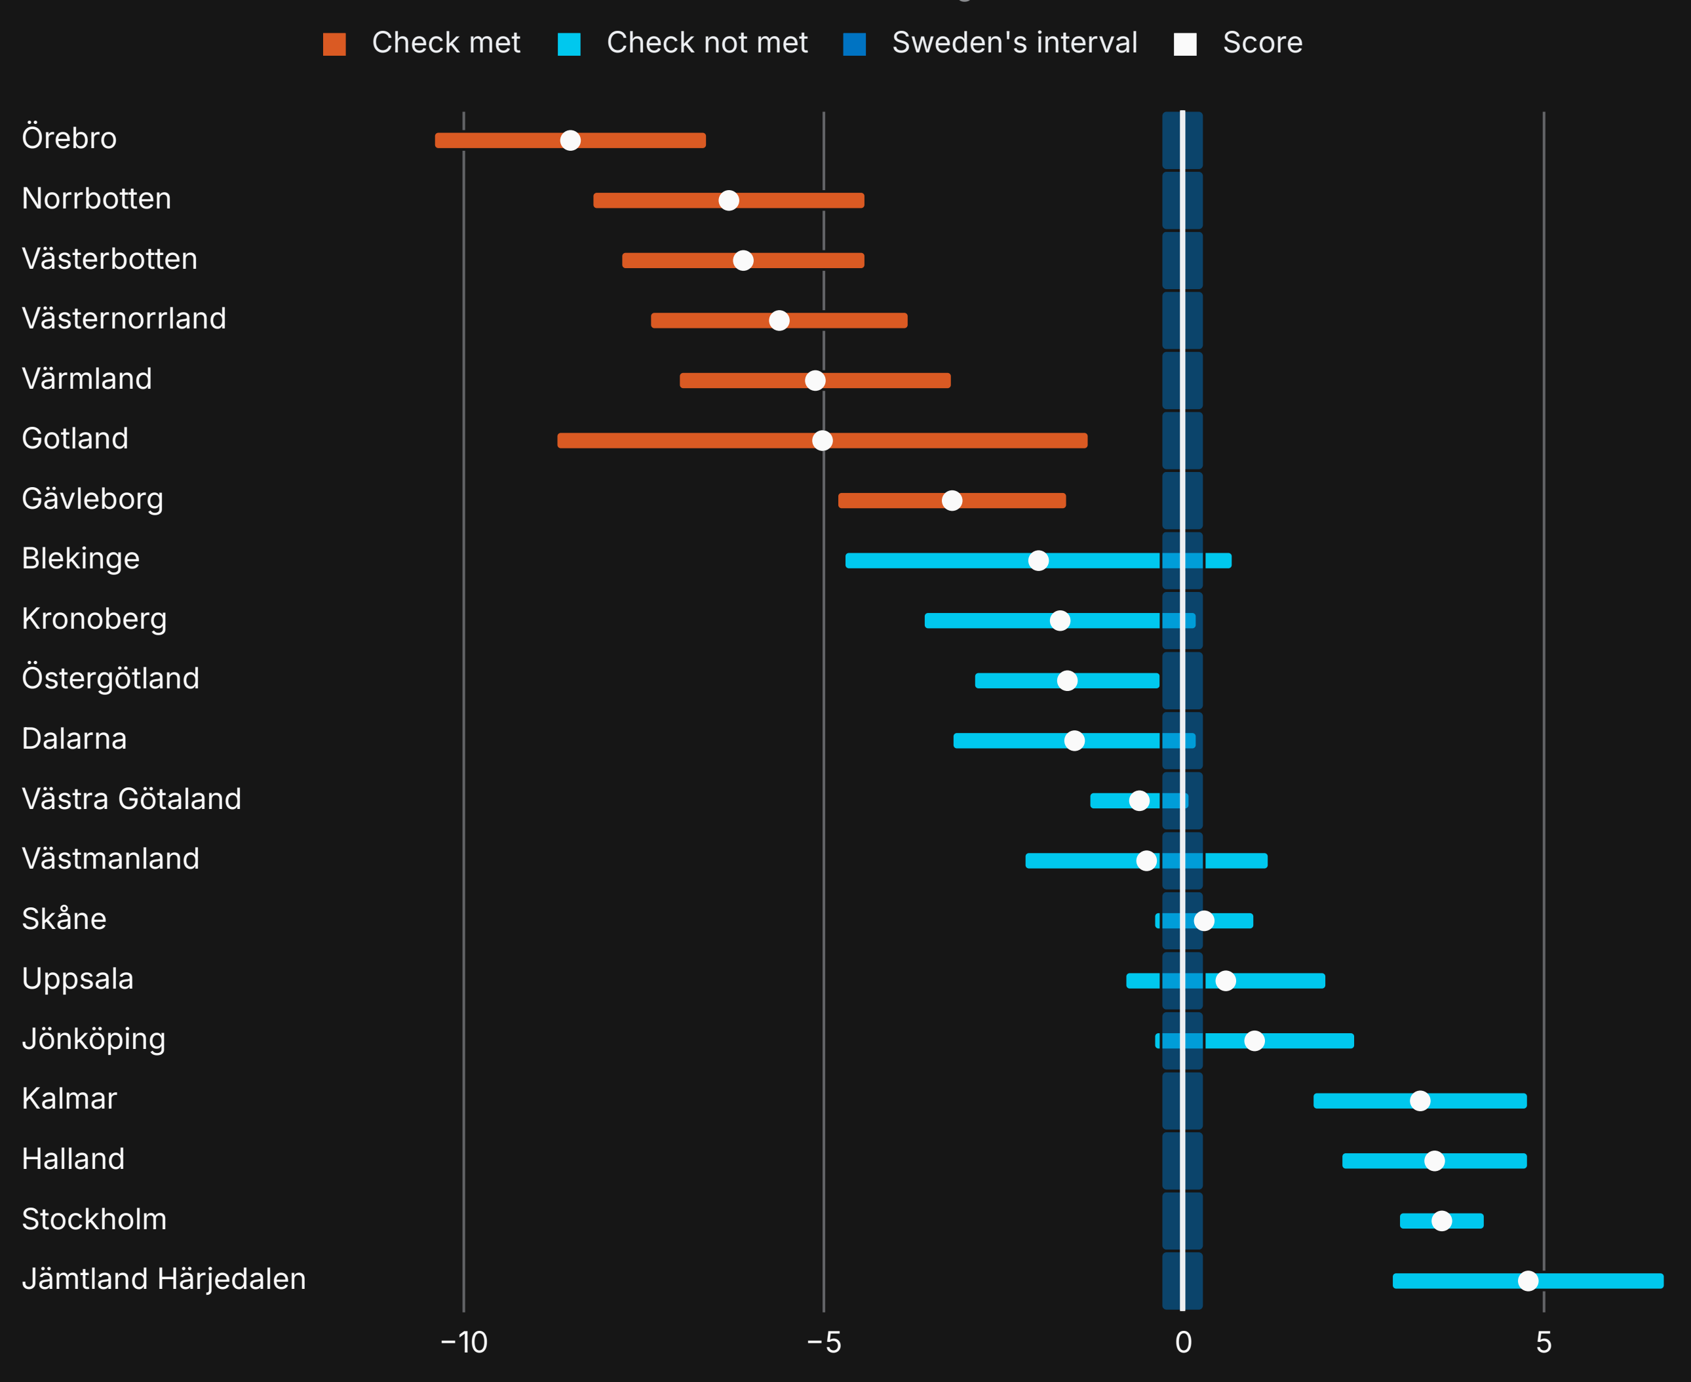
Patients (NPE): accessibility

Score vs Sweden with confidence intervals. Check met when the region's interval is below Sweden's (the band).



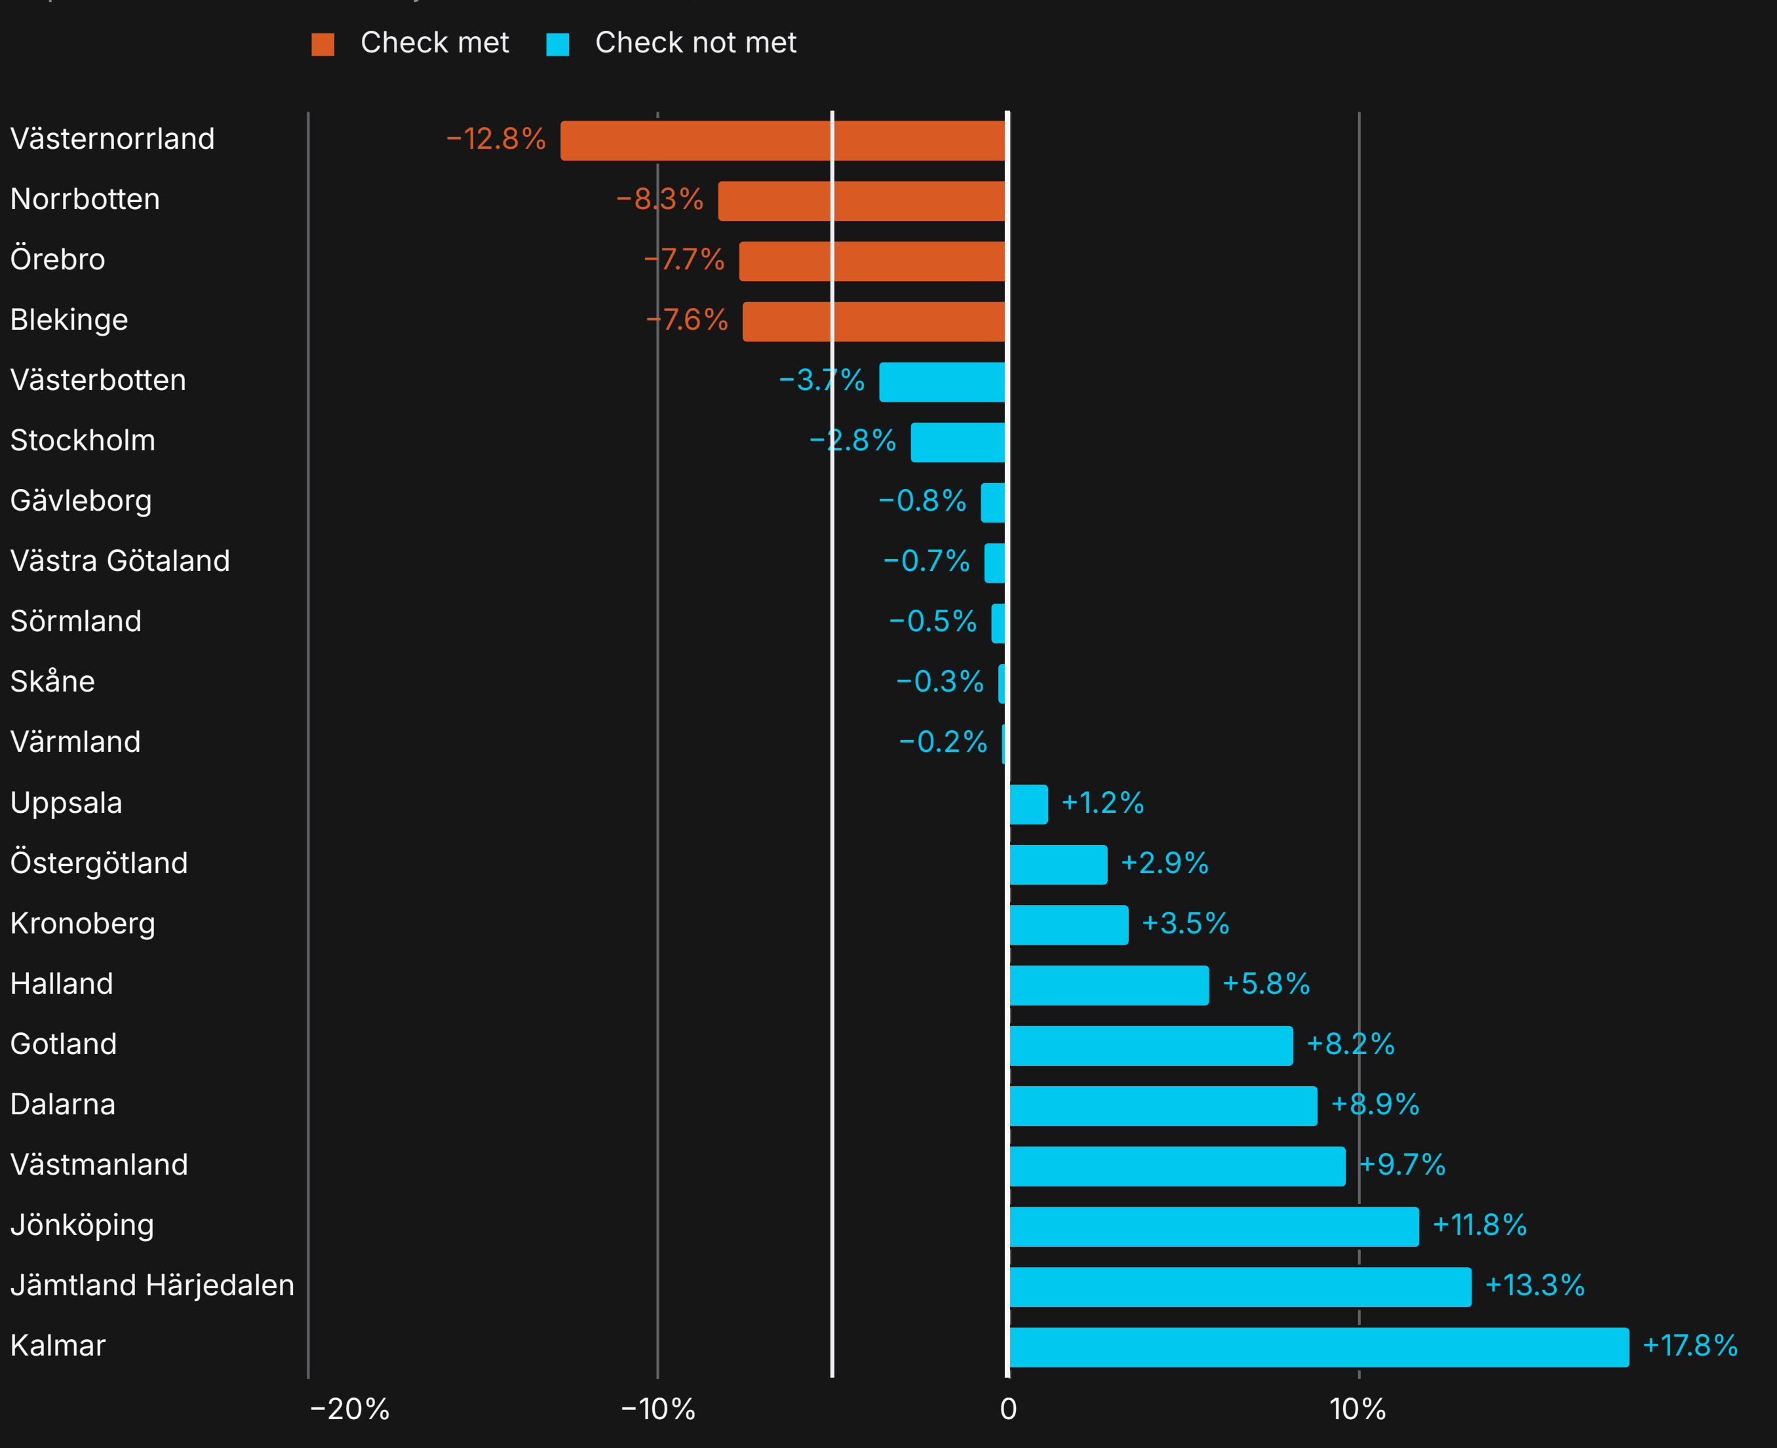
Patients (NPE): continuity

Score vs Sweden with confidence intervals. Check met when the region's interval is below Sweden's (the band).



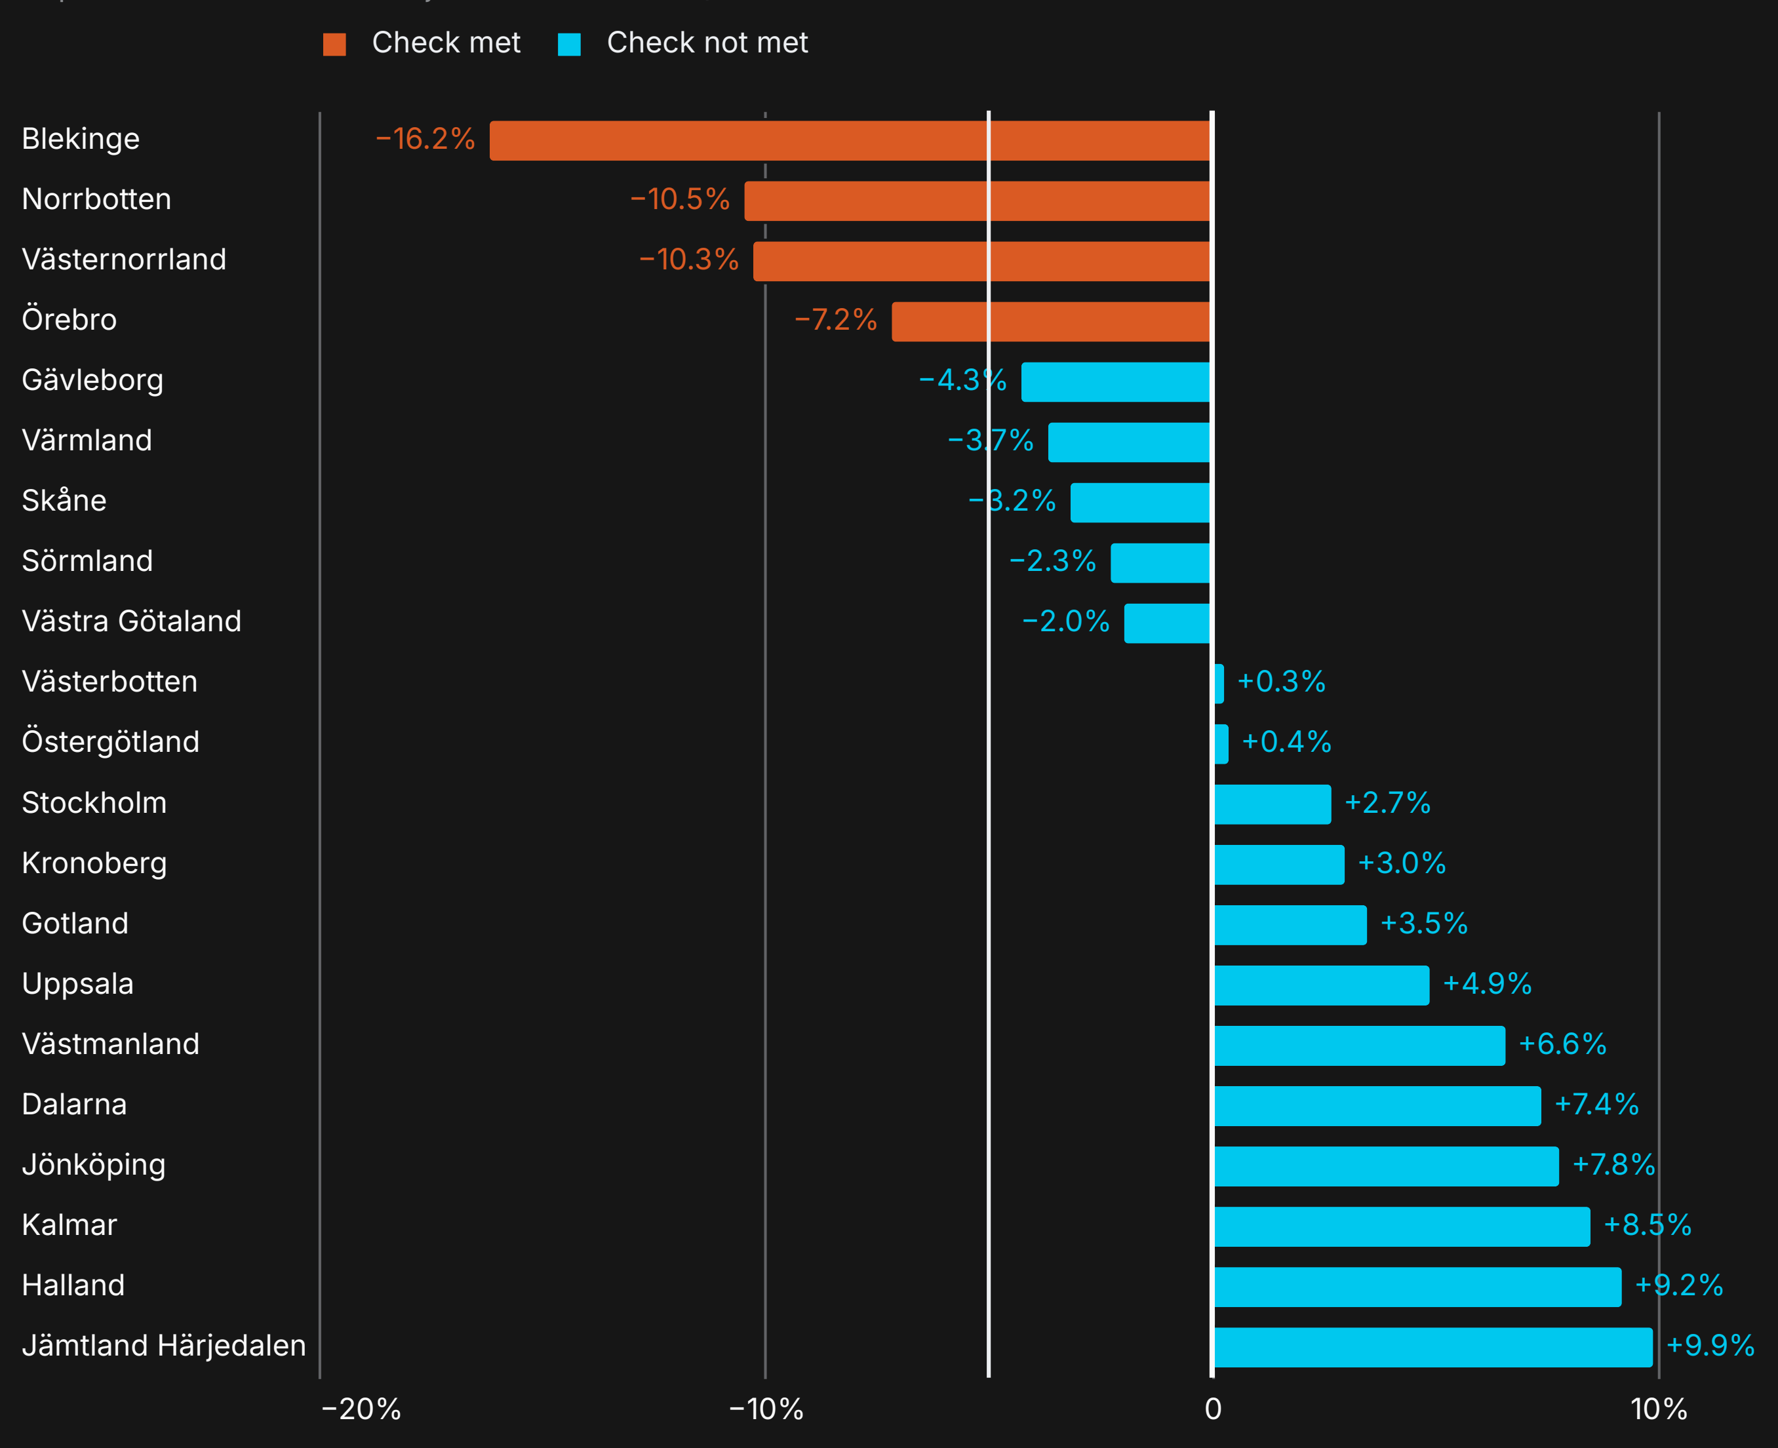
Residents: waiting time is reasonable

Gap to Sweden (Hälso- och sjukvårdsbarometern). Check: 5 % or more below.



Residents: trust in health centres

Gap to Sweden (Hälso- och sjukvårdsbarometern). Check: 5 % or more below.

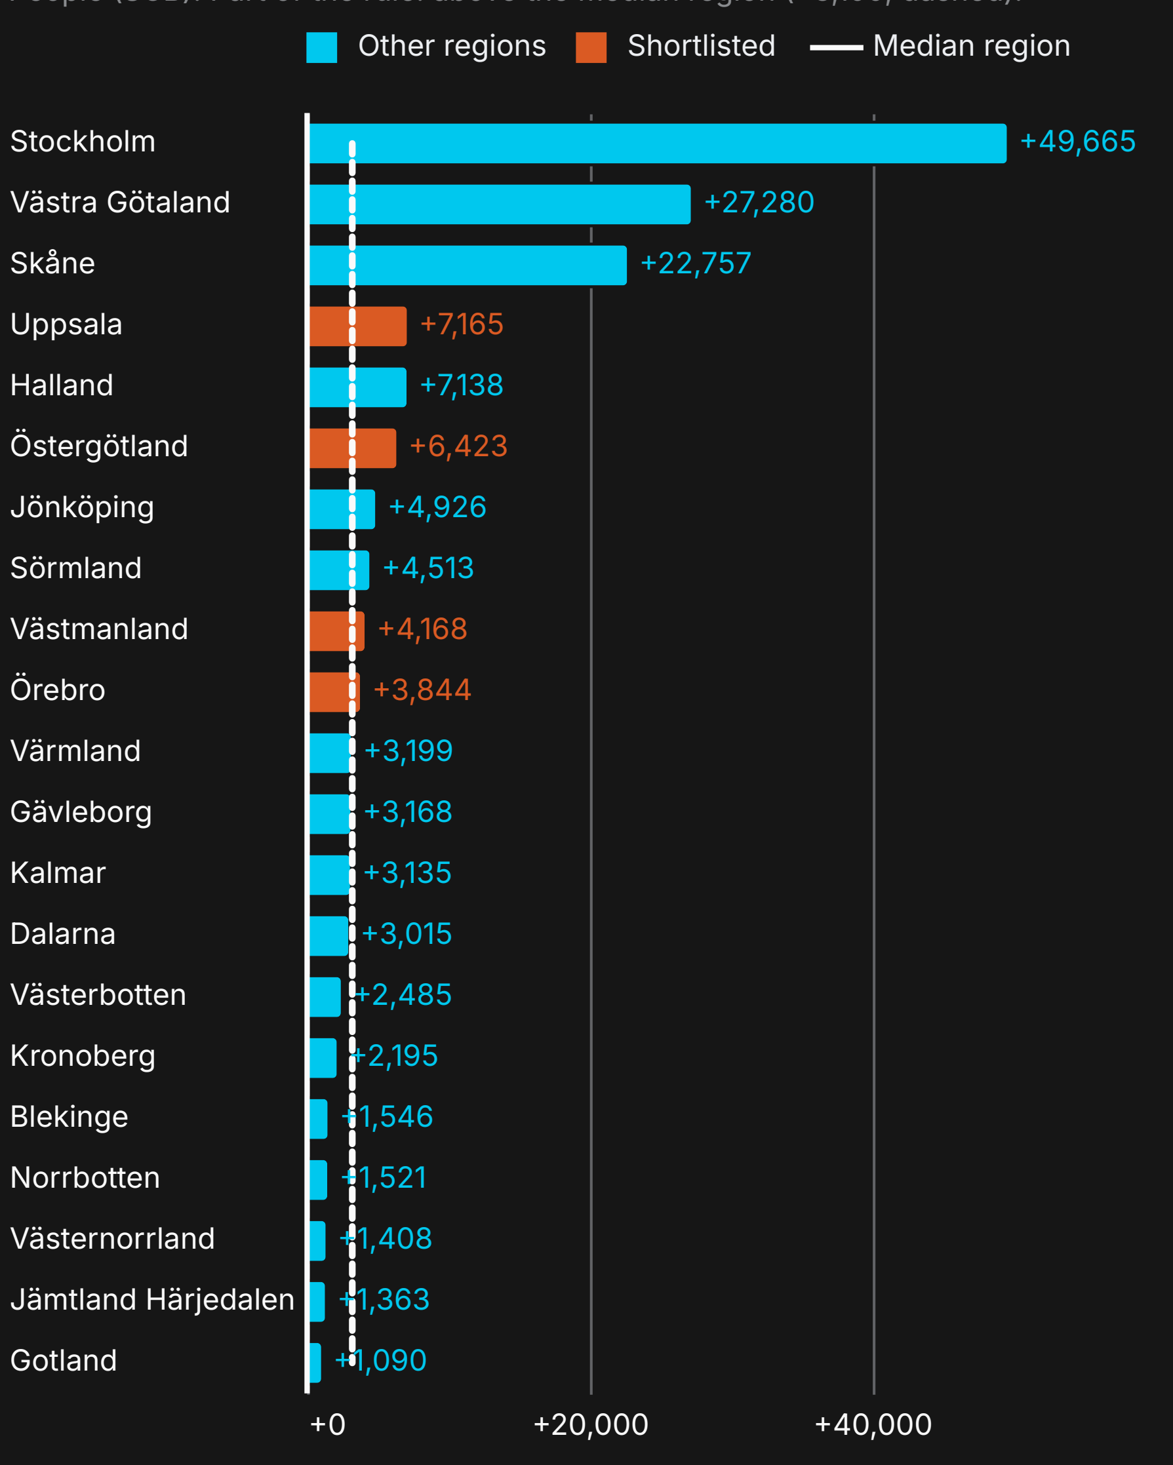


3. Where is demand highest?

In people, not percent: a new centre needs listed patients. Shortlisted regions in orange.

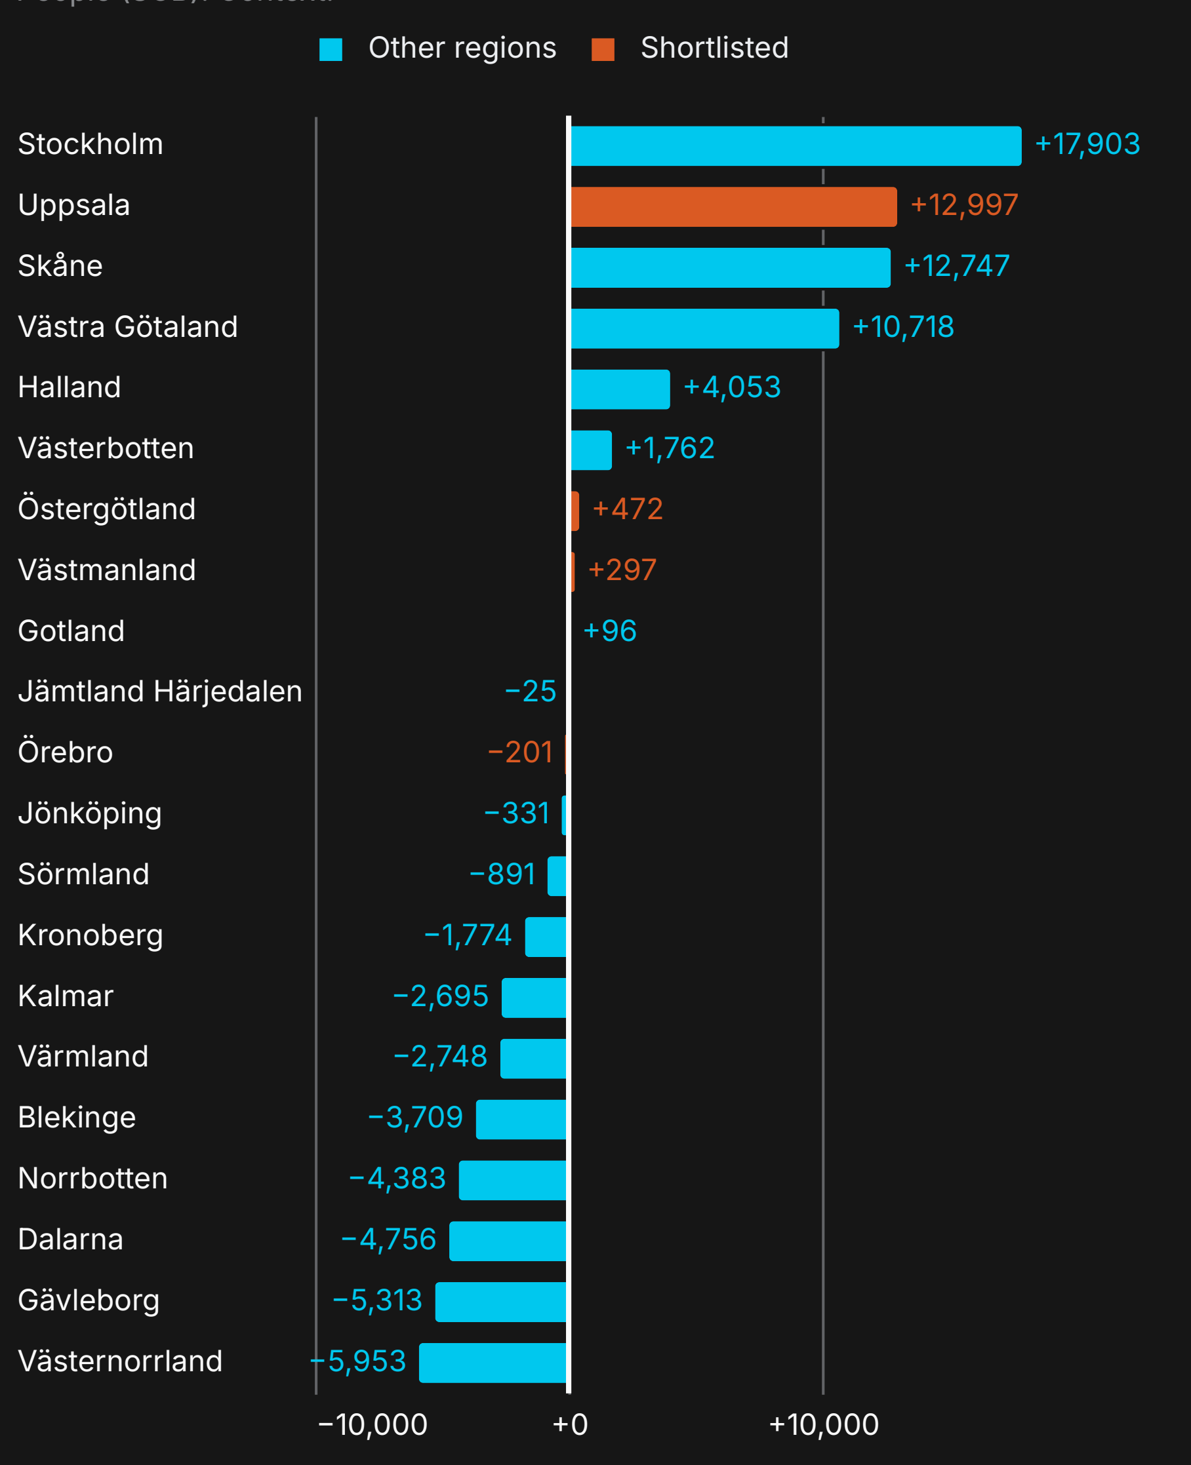
Residents 65+: change by 2030

People (SCB). Part of the rule: above the median region (+3,199, dashed).



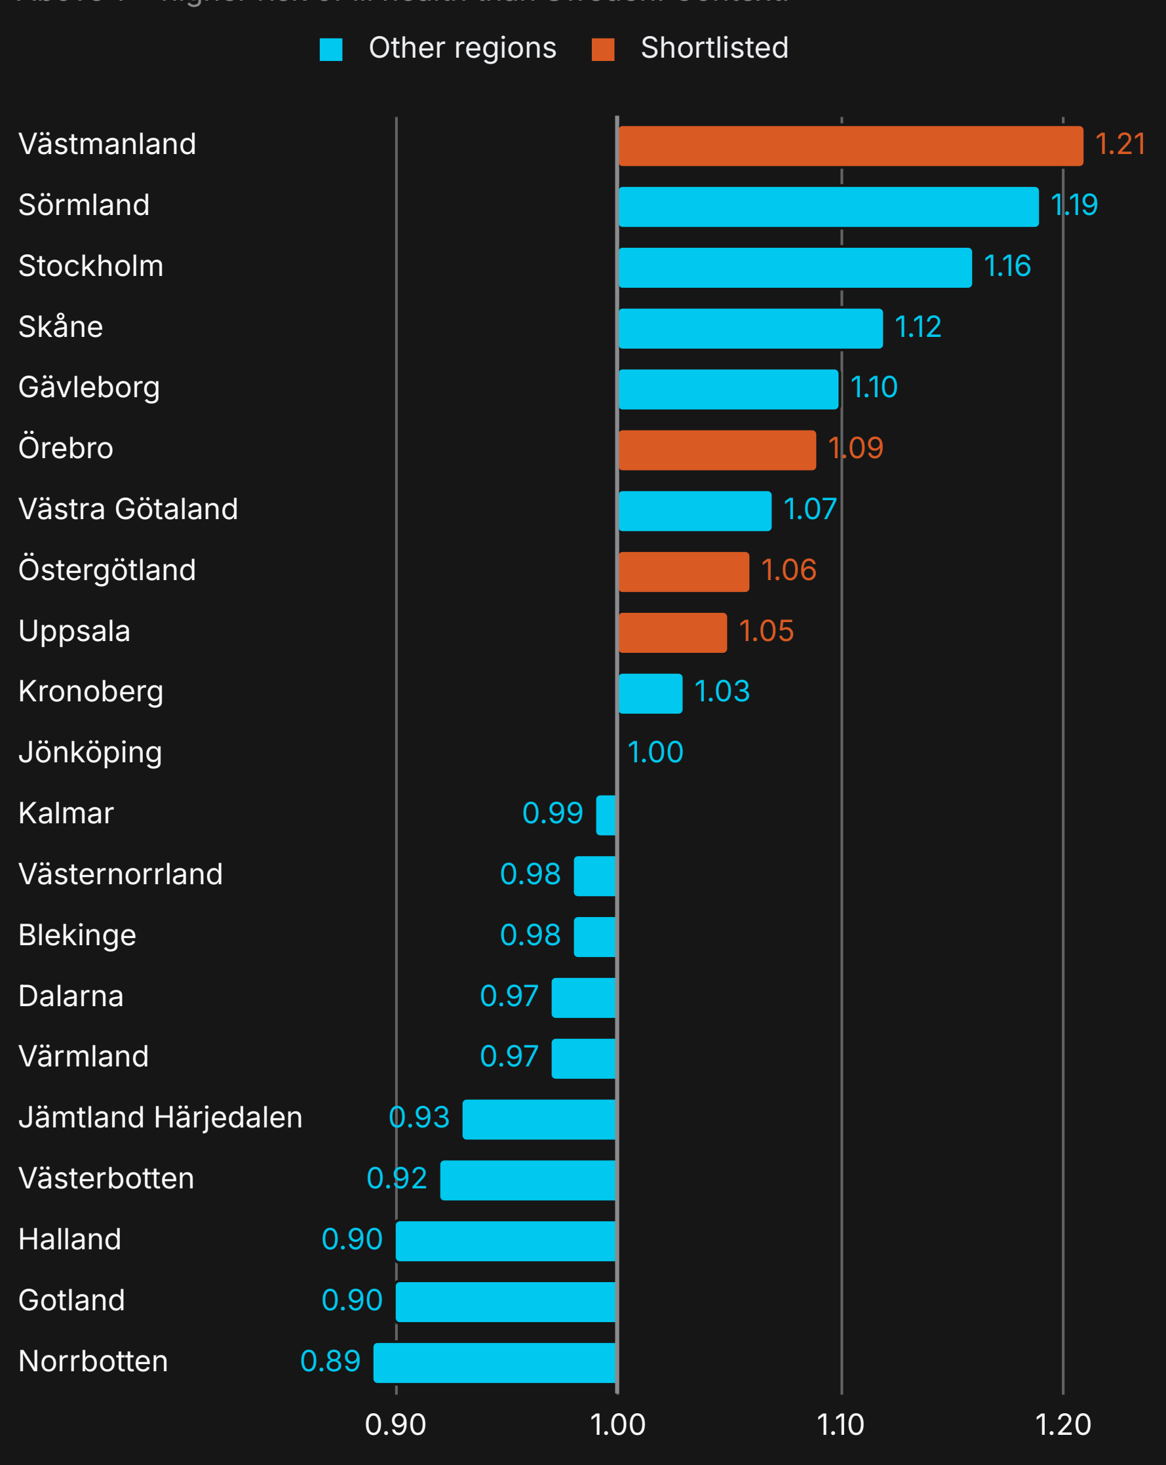
Residents: change by 2030

People (SCB). Context.



Care Need Index

Above 1 = higher risk of ill health than Sweden. Context.



About the data

Gaps to Sweden are in percentage points, shown with %. Socialstyrelsen waiting times (monthly from July 2025, 6 months in 2025; Sweden = the official figure, without regions changing journal systems) · SKR patient survey NPE 2025 · Kolada: Hälso- och sjukvårdsbarometern (residents), purchase share (N71029), Care Need Index (N00992), SCB projections 2025–2030.
